The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 12, 16, 21, & 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Gasser 5,630,407.

Gasser shows a bow having a stabilizer 6; a base element 7 mounted to the riser; and legs 8, 9 mounted to stubs 14, 15 on the base element, the legs and stabilizer having ends 10 which define a plane. It would be possible for the legs 8, 9 and another bow component, such as a cam, to cooperate to form a tripod to support the bow; although Gasser does not describe the legs as a stand, the device of Gasser shows all structure claimed and could be used as a stand with no structural change.

Claims 1, 3-6, 8, 9, & 23-25 are allowed.

Claims 17 & 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten
